The University of Michigan Press, United States, 2009. Mixed media product. Book Condition: New. 251 x 201 mm. Language: English . Brand New Book. The Four Point series is designed for English language learners whose primary goal is to succeed in an academic setting. The series covers the four academic skills of reading, writing, listening, and speaking while providing reinforcement and systematic recycling of key vocabulary and further exposure to grammar issues. In order to participate in academic settings, ELLs need focused activities to develop and then maintain their use of vocabulary and grammar. Each book in the series focuses heavily on vocabulary in particular, highlighting between 125-150 key vocabulary items including individual words, compound words, phrasal verbs, short phrases, idioms, metaphors, collocations, and longer set lexical phrases. Listening-Speaking 2, Advanced , contains six two-part lectures on the topic within a field of academic study: applied linguistics, ecology, psychology, geology, communication, and economics. The lectures range in length from 6 to 9 minutes and are provided on the audio CDs packaged with the book. The exercises practice an array of important academic listening and speaking skills, including making presentations, and also reinforce vocabulary and reading and writing skills. Students will also practice both short and long extemporaneous speaking, including skills like interrupting, maintaining the floor, and polite adding on to another speaker's thoughts/comments. Toward this end, four video scenes (available on the companion website) model student behavior when working in groups and when asking for clarification and trying to hold the floor. By addressing the breadth and depth of listening and speaking tasks required in academic settings, students will grow confident in areas that build the fluencies needed to succeed in their academic endeavors.
