Brand New Book ***** Print on Demand *****.Throughout early and modern history many men have pondered the question s, how, why and what created the universe? Of course, most of these questions in early history were simply answered by appealing to the notion of a God or Gods. However, modern culture has progressed to a stage where these notions of God or Gods and their definitive meanings have to be questioned. For example who exactly is God? What is God? Where does God exist in relation to the universe? What role did God play in the creation of the universe? Man s relationship to God must also be questioned, his mind, his thoughts, his soul, where is the connection? Life, death, life after death, where does it fit in to God s big picture , because for us to truly understand God s purpose for existence, we must first understand God s method of creation. For God s method of creation will unlock man s mind and spirit from its physical boundary of isolation. This book is a philosophical approach to the reality of creation, evolution and the paradox of the universe; it deals with God s spiritual entity. This is an answer to a question and an observation which forms a mental, as well as visual, understanding that climaxes into an equation of God.
