

Unemployment of low-skill workers in Germany - Would an earned income tax implemented on the EU level help to strengthen their position?

By Daniel Schmidt

GRIN Verlag Nov 2009, 2009. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2007 in the subject Politics - International Politics - Topic: Globalization, Political Economics, grade: 1,0, University of Twente (Political Institute), course: European Economic Governance, 25 entries in the bibliography, language: English, abstract: Unemployment is a problem for every member state in the EU, even though the numbers of unemployed people vary from country to country. Especially for the countries which are grouped into the continental system (France or Germany) the problem is severe. On the other hand other countries have improved their markets and now have less unemployment than in the 1980th, for example Great Britain or Spain. However, in every country one group is seen as especially problematic and those are the low skilled workers. Persons without good education or professional training run a high risk of becoming unemployed. Compared to academics in Germany their number unemployment is four times as high in this group. This is partly due to the fact that the global competition has become stronger during the last years. Since the wages in other countries are...
