

Types of Aeroplanes, Vol. 1: Instruction Paper (Classic Reprint)

By Charles B Hayward

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Types of Aeroplanes, Vol. 1: Instruction Paper General Survey. In view of the fact that aeroplane design can hardly be said to have progressed beyond its inception, it may appear to be somewhat of a misnomer to refer to standard types. There are, however, a certain number of designs in biplanes and monoplanes, constructed according to well-defined models, and after which the majority of others are patterned. While these are more or less similar in their fundamental characteristics, they vary from one another in important details of size, arrangement, and efficiency of their parts. For the purpose of comparison, a discussion of their distinguishing features, as well as their merits and demerits, is appended. A study of this will be found of the greatest value as a means of obtaining a knowledge of the chief characteristics of the best-known aeroplanes. The fifteen most prominent and distinctive types are described in detail, the order in which they are taken up not being based on any quality of the machines themselves. The biplanes are eight in number,...
