AUTHORHOUSE, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. This book is about grasping power and once achieving it, using that power to assassinate all challengers to the power gained. The Warren Commission Report concluded that Lee Harvey Oswald acted alone and was not part of a conspiracy, and went on to say that there is no evidence of a conspiracy. This report pacified the American public for the last 49 years. Logic and Reason dictates otherwise. Each of us have the ability to use our own logic to determine who had the most to gain from the President John F. Kennedy assassination. However it seems unreasonable that he could do it alone and get away with it. So it doesn't pass the reason test. Therefore, logic again comes into the equation that would require a co-conspirator capable of providing a complete cover-up, so the conspirators will never be caught. The co-conspirators need only patsies to take the blame with promises of a fee or fame or whatever satisfies their weaknesses. With the Kennedy assassination completed and blamed on Lee Harvey Oswald, who is murdered before he can utter more than I'm just a patsy the American population seems satisfied that he paid for his crime, while the conspirators remain free. Using the same procedure of patsies to take the rap, the logical conspirators assassinate Martin Luther King Jr. and Senator Robert Kennedy, a leading Democratic Candidate for President in 1968, and got away with it. Your use of logic and reason may lead you to the same conclusion that a conspiracy of the highest magnitude took the lives of these three idealists.
