Excerpt: .to use decimally divided leading screws for lathes, so that even in countries using metric systems most of the screws used have threads of Whitworth pitches based on the binary scale, and whenever metric leading screws are used these also are to some extent on the binary scale, that is to say, they use 4-millimetre, 6-millimetre, and 8-millimetre pitch and so on; but even then they are more inconvenient than Whitworth leading screws based on the inch divided on the binary scale. Of course this defect has nothing to do with the metric system, but shows the inferiority for this purpose of the decimal to the duodecimal system of division. The result of this is that in countries using the metre we find two sets of measurements on one drawing, the metric for most of the details, but Whitworth pitches and dimensions specified for the...
