CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 148 pages. Dimensions: 9.9in. x 6.9in. x 0.4in. In a TEOTWAWKI, grid-down or terrorist attack scenario, we may be faced with a resurgence of potentially deadly plagues and diseases. With fewer resources and limited access to medical equipment, facilities and knowledge, we may very well be thrust into the roll of caretaker and medical practitioner for our families, friends and neighbors. In order to successfully manage and treat currently uncommon illnesses and diseases, we have compiled a list of potential medical threats, along with signs, symptoms, treatments and methods of containment. Armed with this reference material, you will have the ability to diagnose and treat a number of illnesses that have nearly been eradicated in modern America, but are very likely to make a comeback in the shadow of a catastrophic event. This book is not intended to replace your family doctor or other health professional. We merely compiled facts and put them together in a format we found convenient and easily readable. We did our best to eliminate non-essential medical terminology and present nothing but the absolute bare essential information needed to identify, treat and contain disease. A Prudent man sees danger and takes refuge, but the simple keep going and suffer for it. Proverbs 22: 3 This item ships from La Vergne, TN. Paperback.
