- Print on Demand Neuware - Essay from the year 2012 in the  
subject Medicine - Epidemiology, grade: 85, , language: English,  
abstract: The Republic of Kenya is a third world country  
located in East Africa and has a number of issues. Kenya is  
poor in terms of its economics; it is a low income developing  
country where agriculture sustains 80% of the people; relying  
on maize as its chief food crop and coffee and tea as the main  
cash crops. Kenya's multiparty democracy and strong central  
government allows healthcare officials and researchers to  
communicate with them. However, Kenya has trouble  
providing adequate healthcare for its population. One of the  
health issues that Kenya must concern itself with is  
Tuberculosis and this can present itself with other medical  
conditions as well, such as HIV. 12 pp. Englisch.
